EXCERPTS FROM THE E12 COMPETITION RULES – INTERNAL EUROPAN COMPETITIONS PROCEDURES

3. JURY PROCEDURES

3.1.3. Structure of the Juries

The jury's decisions are final in compliance with the European rules.

The jury meets in 2 separate sessions at different times:

- At the first session, it makes a preselection of 10 to 20% of the submitted projects. Sites representatives can be integrated to this jury level.
- At the second session, it examines –on its own and independently– all the preselected projects and points out the winners, runners-up and special mentions.

At the beginning of the first session, the jury appoints one of its members as chairman and agrees on its working method.

Each country holds in its budget the equivalent of a [Winner](#) prize and a [Runner-Up](#) prize for each site. Still, each entry is judged on its sole merits and the winning teams are not chosen on basis of an equal distribution between sites. The jury can distribute prizes among entries up to his will and can decide not to award all the prizes. [...]

The jury may single out projects for [Special Mention](#).

These projects are recognised by the jury as presenting innovative ideas or insights, yet not sufficiently suitable for the site to be awarded a winner or runner-up status. The authors of projects receiving a special mention do not receive any reward.
